First name: Juan

Last name: Vilca

Organization:

Title:

Comments: I'd like to see the US Federal Forest Reserve to remove mining from the Pactola area and all lands in the Black Hills. Everything is sacred in this universe. That includes Native lands.

The Natives of the area want an EA (Environmental Assessment) to be done. Then they want a FONSI (Finding of No Significant Impact) to be completed.

Pollution is one of the greatest sins colonizers never cared about.

Gracias! - A concerned Peruvian-American.
