Comments: I live just down the road from this proposed project. I have significant concerns that mining in this area will affect the water runoff from Big Hill which flows down to Roughlock Falls and Spearfish Canyon. When it rains, there are springs that pop up all around Big Hill and the surrounding area. We would lose these springs and alter several creeks/watersheds. There has already been significant Gold mining not far from Big Hill - in Terry Peak area. This part of the country has been altered and devastated by mining already.
