First name: Gordon

Last name: Lange

Organization:

Title:

Comments: Do we need these minerals now, more than likely not. Another corporation destroys and pollutes the land for their profit, we get the mess they leave. Criteria for this kind of extraction is that the land is returned to original state by company, they are required to put money in escrow for cleanup that is half the value of extracted minerals. Numerous soil and water tests before, during and after mineral extraction performed by neutral third part chosen by citizens.

Aloha,

Gordy
