Comments: I'm writing to support the Pactola area mineral withdrawal. The Pactola Reservoir provides fresh water and beauty to South Dakota, and is part of the sacred He Sapa. These lands provide many communities downstream with clean water, and should remain preserved and pristine.

Please say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal. I hope you will also expand the area covered by the withdrawal to include all federal lands in the Black Hills.

In addition, please conduct an Environmental Assessment (EA), and afterward issue a Finding of No Significant Impact (FONSI) when the EA has been completed.
