Comments: To whom it may concern,

I strongly encourage the Forest Service to say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal. Furthermore, I urge you to conduct an Environmental Assessment, and for there to be a Finding of No Significant Impact (FONSI) when the EA is complete and the miners withdraw from the land. As a resident of Dakota lands who values the health of our watershed and the plant and animal life sustained by it, I wish to support the preservation of neighboring Lakota lands by withdrawing a substantial source of toxic pollutants.

Thank you,
Blue Delliquanti
