Title:

Comments: Dear sirs,

We LOVE Big Hill and all that it offers for recreation, specifically hiking, cross-country skiing and horseback riding. It is one of the few unpopulated areas in the Black Hills that is truly a treasured nature home for wildlife and an opportunity to escape into the peacefulness and quiet space of the Black Hills. Please reserve this special spot for our future generations and prohibit any more mining in the Black Hills. The destruction to this beautiful land can never be replaced.

Thank you for your consideration!

Sue
