Title:

Comments: I am submitting a comment requesting that the Forest Service say yes to the Pactola Reservoir-Rapid Creek Watershed Withdrawal from settlement, sale, location or entry under public land laws, location and entry untie United States mining laws and leasing under the mineral leasing and geothermal leasing laws for up to 20 years.

I would also ask that the Forest Service do an Environmental Assessment with a finding of No Significant Impact. I support keeping the water free from toxic pollutants. Pollution of the water would inevitably occur with mining of the area. This land is culturally important to the Lakota people and should be preserved.
