Comments: I am opposed to test drilling in our area. Spearfish is a place where people come to enjoy and experience the outdoors. A drilling project will detract from that and disturb wildlife regardless of intent to keep damage to a minimum. The drilling project would also hinder the residents and tourists' ability to safely enjoy the areas near the test drilling sites. It's also unclear what the ultimate goal is. We don't want a drill site or mining operation in our community. That surely would be the outcome of test drilling beyond the initial damage to land/habitat. Please do not allow this project to move forward.
