Last name: Wilkinson

Organization:

Title:

Comments: I object to any gold mining in the Black Hills. I request that you reject this proposed project. I request that you follow Federal laws and require an Environmental Impact Statement as well as an Environmental Impact study, I suggest that as decision makers in matters regarding protecting and preserving and managing our Federal lands and National Parks and State Lands, that wise stewardship, and responsible caretaking and conservation and protection ought to be your main aim. The Black Hills are sacred and home to many species.. please ensure that the Waters remain pure and the mountains and wildlife are protected and preserved in their natural state.. for our children and grandchildren's generations..

Thank You,

Sincerely,

Uma J Wilkinson
