Comments: Please say yes to the pactola reservoir rapid creek watershed withdrawal. The mining could greatly effect the water quality and therefore harm the communities connected to it. it is a place of religious and cultural importance. . the indigenous people that have loved and cared for jenny gulch before we even arrived deserve to have their land respected and they themselves treat with that same respect. They deserve clean water, we all do. Think about them. Think about everyone before you make this decision. Imagination what this would do to the beauty of jenny gulch. Please say yes to the pactola reservoir rapid creek watershed withdrawal and please consider doing an environmental assessment.
