Title:

Comments: I am asking the following:

1. For the Forest Service (FS) to say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal.
2. For the FS to complete a thorough Environmental Assessment (EA), and, once completed, find a Finding of No Significant Impact (FONSI). An EA is the right path instead of an Environmental Impact Statement given the short time we have.

The reasons are many, but they include protecting Indigenous lands and culturally critical sites, ensuring toxin-free water and keeping ecosystems intact.

Thank you for doing the right thing.
