Title:

Comments: Please, please, say yes to the Pactola Reservoir-Rapid Creek Watershed Withdrawal. We need to do everything we possibly can for the creatures (including us!) on our planet right now, and it is your responsibility to steward them. This land is in Lakota Country, and it is sacred land that benefits Native and non-Native people alike, so it is imperative that you listen to the Lakota people here. Please also expand the area of the withdrawal to cover all federal lands in the Black Hills. I also push for an Environmental Assessment after the withdrawal, and a Finding of No Significant Impact following their removal. Water is life. This withdrawal would safeguard our water from toxic pollutants for both the present and future generations, and it's becoming more and more clear every day that we all need to do our part for our planet and our futures.
