Comments: I want the Forest Service to say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal. Ask the Forest Service to do an Environmental Assessment (EA).

I ask for a Finding of No Significant Impact (FONSI) when the EA has been completed. This may seem counterintuitive, but there will, in fact, be no significant impact to the land once the miners are forced to withdraw!

I support mineral withdrawal in order to improve water quality by insuring that the water is free of toxic pollution. Further, I support the cultural values of local Native Americans in order to help maintain the integrity of, as well to show respect for the sacred lands of the Lakota People. Finally, this is important as well in order to preserve the site for recreational purposes.
