Comments: I appreciate and love the intact natural landscapes in the U.S. and elsewhere. Therefore I ask you to say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal and do an Environmental Assessment (EA). When this has been completed I want you to create a Finding of No Significant Impact to state there will be no significant impact to the land once the miners are forced to withdraw.

I support the mineral withdrawal because good water quality and preserving nature are important not only for recreation but also in the worldwide fight against climate change.
