Comments: To Whom It May Concern,

I emphatically support expanding the area covered by the withdrawal to include all federal lands in the Black Hills. These are sacred lands, which nourish so many Native and non-Native communities downstream with clean water, should be preserved and pristine forever.

Please complete an Environmental Assessment (EA) and find No Significant Impact (FONSI) when the EA has been completed.

Water quality is more important today than ever so keeping it free of toxic pollutants is critical. Then there's the cultural aspects. It's time we start respecting the sacred lands and honor the treaties of the Lakota People

And simply, we need protect what little we have left.
