Comments: YOU CANT REMOVE PACTOLA. I grew up in Rapid City and my entire childhood and friendships were made spending time at lakes like Pactola. Taking away the lake for monetary value provides nothing to the community of the Black Hills besides anger. What's going to be next, removing Mount Rushmore? This is all sentimental to thousands of individuals in the community. This will force people to move away because of horrible decisions. I want to visit home every single weekend to enjoy what the Black Hills has to offer. Don't do this to us and future generations. We will be reducing opportunity for our youth as the digital age continues to consume them. This is an easy decision, don't continue.
