Comments: Hello,

I'm writing to ask that the US Forest Service says YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal. I'm also writing to ask that the Forest Service to do an Environmental Assessment and.
for a Finding of No Significant Impact when the EA has been completed. I support the mineral withdrawal because preserving the quality of water by keeping it toxic free is critical to the good health of nearby residents and visitors. Additionally, doing so respects the sacred lands of the Lakota People and preserves the site for recreation.

Thank you for your consideration,
Emilia De Leo
