Subject: [External Email]RE: Lolo Plan Revision Geospatial Data

My comment on April 24 in the comment portal includes more than the point selected in the Selway Bitterroot Wilderness. It includes all suitable habitat types mentioned in the comment. Please make sure this is added to that particular comment. I was unable to pick a smaller point to be studied.

Thank-you.

P.S.I also sent an earlier comment and this is in addition to that. Tell me if you need the earlier comment again, because it has important info, too. Amanda knows I sent the earlier comment. I want Sabin, plant ecologist to see the comment
