Title:

Comments: This land, all of this land of earth, including America is a gift from Creator God. As Children of God we are to be good stewards of our gifts and honor our relations with all of life. Water is life you know. We can't live without clean air, clean water and healthy soil. The First Nation peoples know this but the average man or woman does not. So the average American believes it is ok to pollute these sacred gifts from God. So it is important we honor the First Nation people and need their calls for learning how to live sustainably with nature because all the average person knows is how to destroy it. I pray that whoever is making these decisions reads these words and heeds my prayer; thy Kingdom come thy will be done on earth as it is in heaven. For I am the Way and the Truth and I stand with the native peoples on this issue. Aho Mitakuye Oyasin.
