First name: Lauryn

Last name: Clown

Organization:

Title:

Comments: Anpetu waste (Good day),

Why have we not learned from the past? Why have we not learned from other tragedies around the country? Disturbing the land, animals, and plants for profit does not benefit anyone but the ones who sit in an office and make the choice that they want more money. Pa Ha Sapa, The Heart of Everything That Is, or The Blake Hills is my home; it is my peoples home and has been long before the "discovery" of present day USA.

We have a responsibility to Unci Maka, Our Mother The Earth; she takes care of us and in return we must take care of her. With that, I am asking for an Environmental Assessment (EA) to be done in protection of Pa Ha Sapa, which resides on Unci Maka.
