Comments: The Forest Service should say YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal.

This area contains lands sacred to the Lakota People, and it is extremely important that the water and environment stays free of pollutants and toxins. The Pactola Reservoir is vital for supporting life in the area, including both Native and non-Native communities. This area is so beautiful, and the Forest Services should do an Environmental Assessment, followed by a Finding of No Significant Impact to ensure that it stays preserved for many generations to enjoy and benefit from.
