First name: Susan

Last name: Henderson

Organization:

Title:

Comments: I support the withdrawal of all mining activities in the Pactola Dam area in SD. I also support the withdrawal of all mining activities in the entire Black Hills and selected areas of Wyoming. These dangerous mining activities will forever contaminate and degrade valuable water resources in aquifers, ground water, and surface water needed for towns, cities, and agriculture. Once the contamination has occurred water quality can never be restored. Susan Henderson
