Comments: I support the proposed mining withdrawal from the Rapid Creek watershed. I love and appreciate the public treasure that is the Rapid Creek watershed. I like to hike in it and wade in the creek on a hot summer day. I like the fresh air and the clean water. I love the sounds of nature I find below the dam. I enjoy watching the birds make a living off each little flowing rivulet. Trying to eat the hatches before the fish can. It is a precious place that deserves to be protected. Thanks for your time.
