Title:

Comments: Thank you for taking time to reconsider mining around Pactola. As a native South Dakotan and current resident, the health and well being of this water supply is crucial to the health and well being of our entire community. Water needs to be protected for our generation and future generations to continue to reside here. As an important part of our entire ecosystem, protecting this water supply from any mining is an important role that resides in your hands. Please stop mining around Pactola and protect the health and well-being of our community.
