100% support Coneyglade extension, but cross traffic needs to be addressed.

100% support extending Cirque, but runs to High Alpine need to be clearly marked on trail maps.

On the hiking trail issue... The whole Elk Camp hiking trail system is already ruined from the Alpine Coaster replacing the best hiking trail off of the map. We and our friends have given up on hiking the top half, because it is pretty much ruined, and taking the nice parts of the Summit trail away also to hikers is unforgivable. Perhaps because hikers don't pay to ride is why hiking is not regarded. If they do get to change the hiking trail, they should also be REQUIRED to maintain all of the hiking trails, especially the lower trails to the gondola where there is more overgrowth. There doesn't appear to be any attention to trail maintenance of those trails all summer long, yet the mountain biking trails are pristine. We all spend money to visit Snowmass regardless if we bike or not. Please consider others that love nature and can't mountain bike! Also consider fining mountain bikers, hikers and tourists that litter. It's not acceptable! Please help protect our environment and make it usable to everyone.
