Comments: Ward Lake has been used by local community member and independent travelers. I do not believe that commercial tours, such as you see with the cruise industry, should be allowed access to the Ward Lake turn to access the lake and associated camp grounds and trails. There is little room for mixed use in this area. The potential impacts are too great. The roads are too narrow, bathrooms are antiquated, lack clean drinking water, over crowding, destruction of the quiet, serene nature of the area. Added air pollution, litter and a loss to the year-around residents that live here. I vote for zero commercial use of the Ward lake camp grounds and related trails. Thank you
