Comments: I wish to lobby for my continued request to advance the proposed Great Burn Wilderness to complete wilderness designation and to exclude snow mobiles and bicycles of any kind into the Great Burn proposed wilderness. I support snow mobiles access elsewhere and the majority of the state line from Hoo Doo Pass to Lookout Pass is currently open to snow mobiles? I also continue to support the roadless designations already in the areas, and currently there is ample room for mechanized vehicle recreation, and the amount of area open to mechanized recreation does not need to be increased, but consideration to enhancement is ok.

In terms of fuel reduction via timber harvest, I support that in non-wilderness areas. While timber harvest, prescribed burns, and spontaneous wildfires may reduce fuel; trees may not grow back because of climate change. This may affect long term economics, and the local communities need to understand that. I feel the Forest Service needs to provide this information now and in the future to these communities and lobby for everyone to prevent climate change, not just mitigation.
