Comments: Comment is for 2021 Wildfire Roadside Danger Tree Mitigation Project (62951).

I'm in support of the 2021 Wildfire Roadside Danger Tree Mitigation Project (62951). This project will open roads and improve the safety for the publics use on roads that the tax payers have paid to build and maintain for decades. Having these roads back open and to be safe will increase use and will also increase fuel sales, fuel taxes, OHV permit sales, vehicle registration, local stores, restaurants, campgrounds. Having this project complete will also create priceless family memories by the families that use these roads for recreation.
