First name: Tami

Last name: Mehus

Organization: Big Timber Grade School

Title:

Comments: Having grown up and raised my own children in this special community I have a deeply vested interest. I have watched large ranching parcels be bought up and what was once a very large agricultural area has changed. Our community has been able to continue to thrive due to the many amazing people and support of Stillwater/Sibanye Mine. Without the mine, it would drastically change and have a negative impact on our community and schools. The mine not only supports our community, but offers jobs which keeps our enrollment going.
