Comments: I agree with making the Endurance user trails at Corral Flats official trails which would do several positive things. One being making the trails safer for horses and their riders. And by doing this, it will attract more horseback riders. Given the damage to the trails by the use of off road vehicles in the area that are causing erosion issues, these problems could be addressed at the same time. One concern is if this does not happen, the trails and the area might become too damaged to even be used.
