Last name: Brock

Organization:

Title:

Comments: Matt and I own the property adjacent to the North Western corner of the proposed land swap. My Great Aunt and Uncle bought this property in 1940 to have a cabin. We inherited this property from my parents to build our dream home to replace the cabin that burned down in the most recent fire. We have used the 2 track trail from County Road 198 going north, past the pond, and along the fence line to our property for as long as I can remember. This is where my Aunt used to take us up to visit the cabin when I was a child. I have always loved the Hillside area and have dreamed of having a home up there. Our family sold our home 2 years ago to build our dream home and are anxious to start building.

We love what Rainbow Trail Lutheran Camp does for the many people that visit it each year and look forward to being neighbors. We are in full support of the land swap and are excited to see what RTALC will be able to do when they fully own this land. We love hearing the sounds from the camp knowing what God is doing just next door to us. We look forward to being neighbors and working together for many, many years to come. We respectfully request that we will have permanent driving access to our property from County Road 198 written into the final documents.

Thank you,

Matt and Katie Brock
