First name: Brent

Last name: Moore

Organization: Interstate Engineering

Title: Regional Vice President

Comments: I am writing to support expansion of the East Boulder Mine. This mine operated by Sibanye Stillwater has a positive impact on economic activity in the region where our company works. We provide planning and design to local communities across the region who have a continuous need for support for infrastructure projects. As our communities continue to grow, having steady income for many of our residents allows our communities to keep up with infrastructure demands.

Sincerely,

Brent Moore, AICP

Regional Vice President
