Comments: To whom it may concern, I am in support of approving the major amendment for Sibanye-Stillwater East Boulder mine.

Stillwater's operations at East Boulder and Nye are critical economic drivers for the region and Montana as a whole, contributing over \$6 Billion in economic output for the state and supporting thousands of high-paying jobs. They have proven they can mine platinum group metals -- critical to our nation's continued security and economic prosperity -- without negative impacts to the environment and to the benefit of their workers and the communities in which they reside.

Please approve the amendment so Stillwater can continue its stellar example of sustainable, responsible mining in the Treasure State and provide living wage jobs to many while being stewards of our environment and good neighbors to all of Montana.
