Comments: JHMR needs to have the enough control over the terrain in Bridger-Teton National Forrest to run a viable business. However, environmental impacts need to be limited since their permit is in National Forrest.

I would like to see minimal human impact on the Bridger-Teton National Forrest land JHMR is permitted to use due to environmental impact. I believe it should be lift as natural as possible.

1.Sublette Chair Replacement

FOR: I think the environmental impact of this project is outweighed by infrastructure improvement.

2.Alta Chutes

AGAINST: due to blasting, tree removal, burning and use of a helicopter to remove debris.

FOR: tree limbing

3.North Hoback Woods

AGAINST: the removal of trees

4.Upper Sundance Run Realignment

AGAINST

5.Slalom Run Upgrade

FOR: I believe the environmental impact of this project is outweighed by the benefit of the infrastructure improvement.

6.Gros Ventre Run Upgrade

AGAINST: due to excessive grading and rock blasting

7.Werner Trail Widening

AGAINST: because of filling in a wetland

8.Lower Ashley Ridge Upgrade

AGAINST: too much environmental impact

9.Grand Run Upgrade

FOR: benefit outweighs environmental impact

10.Gondola Base Area Access Traverse

AGAINST: against removing so many trees

11.Togwotee Pass Traverse Realignment

FOR: benefits outweigh environmental impact

12.Cirque Traverse Upgrade

FOR: environmental impact is outweighed by benefits

13.Stash Park Upgrades and

FOR: I think there will be net positive environmental impact by conserving water and energy use

14.Terrain Parks Summer Grading

FOR: I think there will be net positive environmental impact by conserving water and energy use

15.Union Pass Traverse Snowmaking

FOR: benefits outweigh environmental costs

16.Sublette Patrol Station

FOR: it is necessary

17.Bear Flats Café Expansion

FOR

18.Rendezvous Lodge Addition

FOR

19.Rendezvous Event Site Upgrade

FOR

20.Casper Event Site

AGAINST: environmental impact too great

21.Paradise Lost Multi-Use Trail

FOR

22.WILDFLOWER SPUR HIKING TRAIL

FOR: low environmental impact

23.ELK ALLEY HIKING TRAIL

FOR: low environmental impact

24.WILDFLOWER-SOLITUDE ACCESS HIKING TRAIL

FOR: low environmental impact

25.FAR DRIFT MULTI-USE TRAIL

FOR: low environmental impact

26.JACKSON WOODS DOWNHILL TRAIL

AGAINST: too much environmental impact

27.BEAVER TOOTH/ASHLEY DOWNHILL TRAIL

AGAINST: too much environmental impact

28.ELEVATED WALKWAY

AGAINST: too much environmental impact

29.BALL TRACK

FOR: low environmental cost

30.SUMMIT VIEWING PLATFORM

FOR: low environmental cost for gain in facilities

31.VIA FERRATA ADDITION ROUTE AND REPELLING STATIONS
AGAINST: too much environmental impact

32.FUELS REDUCTION AT WILDLAND-URBAN INTERFACE
FOR

33.EXPLOSIVES TROLLEYS
AGAINST: too much environmental impact

34.AVALANCHE EXPLODERS
FOR: environmental impact is offset enough for increase in safety

35.AVALANCHE CONTROL FENCING
AGAINST: too much environmental impact
