Comments: There's a lot to say about what's happening to Jackson Hole these days & what "progress" looks like to everyone is quite different. I'll keep this simple & sweet, altering any mountain to be "easier" is a joke and a disgrace. Please don't let this place become a joke for the sake of money. If people want an easier mountain there are PLENTY of options outside of Jackson Hole. We certainly are not hurting for customers and so, why waste money on such a foolish task? I ski here because it is challenging & steep. If I wanted something different I'd go somewhere else not try to change a place to suit me. Who are these foolish people who'd even make such a suggestion? I hope these people aren't the future of Jackson. This further ensures the fact that I despise money. What a disgrace.
