First name: Bruce

Last name: Rowland

Organization: Stimson Lumber Company

Title: State Manager

Comments: Stimson Lumber Company owns lands within and adjacent to the project area. Our interest and desire is to reduce fuels to the maximum extent possible along our shared boundaries. This would include slashing, masticating, prescribed fire and commercial harvest of mature timber to restore the health and vigor of the forest and ensure fire resilience. In addition, we support restoring and maintaining the current road system to improve access for fire suppression efforts. Stimson stands ready to assist in any way in making this project a success.
