Comments: I believe that the route along Divide Road and US 89's increased truck traffic in the area will cause problems with the snowmobile routes to the west and traffic problems to both Showdown ski area and the snowmobile/skier parking lots. It will also increase the distances traveled to the riding areas to the west. From the maps I have seen, I believe it would be a better route to use Moose Creek road to get to Sheep Creek Rd and then Hwy 89. Please consider this route in your planning. Thanks
