Comments: I object to any proposal that will increase snow vehicle use on FS Road 410. An ongoing logging operation is in effect on FW&P land on Pine Ridge and the noise from this and Dry Creek is more than I deserve. More noise from over snow machines is not in my best interest or wildlife in the area.

I witnessed use by a snow machine in a restricted area (north fork Bull River) by a weekend neighbor; the noise was horrendous. Perhaps these folks could run around in the Dollar Tree parking lot in Libby.

Please respond.

Sincerely
Charles Harpole
