First name: Jeffrey

Last name: Lewis

Organization: Independent Stave Company

Title: Manager/Forester

Comments: I am writing to express full support for this project. It is good to see the Forest Service propose a project that is soundly based in the science and art of forestry and wildlife management. The proposed treatments should be a positive next step for the area following the 2003 Ice Storm and sanitation efforts made in its aftermath. Looking forward to seeing this project implemented.
