Comments: I am in favor of dead tree removals  next to campgrounds  and roads especially.  Several years ago, i had a large partially diseased dead tree fall across a forest road and trapped up getting out of an area.  The tree was too large to cut or pull off the road.  It became a very difficult and dangerous trip back out to find an alternative 4wd trail.  This happened near the Clavey river out of Long Barn.  I see many dead trees that need removed around the Beardsley area and Crabtree road.
