Comments: To whom it may concern,

I'm a local resident who utilizes the area for all things Montana. We camp, hunt, ride, and Snowmobile in this area. I realize target logging is required to reduce fire hazard and maintain a healthy ecosystem. I agree wholeheartedly with Jon Seaman's comments. I do believe his route accomplishes the task, while having the least amount of disruption, on the existing businesses and recreational opportunities. I'm pretty sure the couple extra miles of drive will be less laborious as additional plowing. I hope you take into consideration all the existing businesses and recreational users as their rights far out way the shortest logging route.
