Title:

Comments: The traffic on the road is becoming unbearable. In addition to the 20 busses per day, huge rattling semis, and many many white Mining managerial trucks go by everyday. It is effecting our quality of life.

Please consider some sort of Alarm System for those of us who live below this gargantuan dam. A call to Big Timber and a reverse 911 system will not work. We need alarm towers like the ones you see for hurricane and tsunami warnings.
