Comments: This comment is regarding the site of the old Douglas Lodge across highway 108 from the Douglas Day Use Area. The site was logged and trashed in 2022. An excuse for not cleaning the site was that it is considered historic. I mentioned this concern last fall in a note to the district and the area was set on fire. This action did not accomplish anything but to make matters worse. The remaining slash is an eyesore and a continuing fire hazard.
