Title:

Comments: I would like to continue to share the forest with others. Not be kicked out. Taking my sons into the backcountry on snowmobiles is one of our favorite things to do. The yaak and dry creek are our favorite places to go on snowmobiles. One of the things we teach our children is to share and respect the forest. This seems like the opposite. People have been riding in these areas for generations. I vote to keep these areas open to snowmobiles, skis, bicycles, tracked atvs, and others.
