Comments: My family is strongly against the Over the Snow Travel Plan.
Smells like a "use it or lose it" situation.
Obviously, Americans are paying way to high of taxes if we are supporting government employees to dream up such ridiculous plans. There has to be a better way to use tax dollars than closing access to OUR forest, again.
Montanans will never fulfill the environmental groups hunger with their more, more attitude.
I thought bears hibernated and vegetation got covered when it snowed.
It is aggravating we have to fight to stay off the couch and to use OUR land.
Plans like this need to be voted on by the locals not dreamed up at a desk from boredom.
"We The People" need to stand together and stop the government from destroying our home!
THIS PLAN WILL ONLY CREATE OUTLAWS!
THIS HAS TO STOP!

P.S. We are also against the addition tax hikes for education and enforcement this plan will need in the future.
