Comments: I oppose this proposal as I do a lot of snowmobiling in the Kootenai National Forest as well use snowmobiles for running trap lines and cat hunting. They are very low impact on the forests leaving only tracks in the snow and this proposal would cut off huge portions of the forest to access during the winter months. It would ultimately start to undermine our way of life. I know it looks like a lot would still be open to ride but the problem is how do you access it when it's been landlocked on multiple sides and your access is now closed? For instance the Big Creek Rd. where it joins old 37.
I would ask that the forest remain completely open to over the snow transportation.
Thank You-
Joshua
