Comments: Why are you now trying to restrict a privilege Montanans have had for years now. This is so over the top and wreaks of California and other liberal influences. Leave Montana and her residence alone and stop trying to take away these things many of us love and enjoy responsibly. This is outrageous and down right insane. Stop trying to regulate literally everything and let us enjoy the beauty of the outdoors in peace. If people want so many restrictions they can move somewhere where these restrictions are already in place. Leave Montana alone and let us live in peace
