Title:

Comments: Grazing by domestic sheep and cows compromises the High Uintas watersheds, fouls the lakes and streams, and severely degrades the experience of visitors seeking a Wilderness experience. Grazing should be curtailed to meet the public's interest in protecting the High Uintas for wildlife and an authentic Wilderness experience for visitors.

Why is owned livestock grazing of public lands that taxpayers pay for. I am completely against this. I want my taxes to go towards National Parks, River , wildlife etc not to farmers who make a living by slaughtering billions of animals/ poultry a year.
