Comments: SDEIS ON SHEEP GRAZING IN HIGH UINTAS WILDERNESS ALTERNATIVE FOR NO GRAZING IS BY FAR PREFERRED. I USED TO BACKPACK OFTEN IN THE PRIMITIVE AREA AND ENJOYED THE SOLITUDE AND FISHING FOR CUTTHROAT TROUT. RIPARIAN AREAS WERE PRISTINE AND NEED TO REMAIN SO. BY CONTRAST, WHEN VISITING SOAPSTONE BASIN TO MTN BIKE, SHEEP TRAMPLE THE WILDFLOWERS, MUDDY THE WATERS, STINK UP THE PLACE WITH URINE AND FECES EVERYWHERE. WE NEED TO SUPPORT THE RECOVERY OF BIGHORN SHEEP AND PREDATORS SUCH AS COUGAR, GRIZZLY BEAR, AND WOLVES, WHICH WOULD BE KILLED FOR PREDATION ON SOME RANCHERS' LAMBS. FS NEEDS TO CLOSE ANY GRAZING ALLOTMENTS WHERE PERMIT IS WAIVED BACK TO FS. SHEEP AND COWS HAVE NO BUSINESS IN WILDERNESS, WHERE HUMAN HUBRIS AND GREED WILL PERNICIOUSLY BEFOUL THAT WHICH SHOULD BE SACROSANCT.
