First name: Laraine

Last name: Lebron

Organization:

Title:

Comments: I have just learned about this. This area should be reserved for the wild species trying to maintain a foothold in the region. Not only are domestic animals usurping this area, but predators are being killed to protect them. This is turning this area on its head. Please, return this area to the animals who live there by nature, and don't allow domestic animals to totally upend their existence.
